**ADMINISTRATIVE LAW JUDGE'S RULING  
DIRECTING PARTIES TO PREPARE ADDITIONAL EXHIBITS**

During the evidentiary hearing on July 24, 2006, Cingular's witness Mr. Conwell testified, without objection, that Respondents accept the methodology of the Hatfield model, but dispute the values assigned by

Petitioners to certain user-definable inputs. (Transcript, pp. 128-9). Accordingly, I am going to order the parties to prepare additional exhibits that will quantify the difference between their positions on the issue of termination charges after taking into account the input changes proposed by Respondents.

## **O R D E R**

### **IT IS ORDERED** that:

1. Respondents shall prepare a table of values showing, for each Petitioner and each disputed issue, Respondents' proposed input to the Hatfield model. Assuming 11 Petitioners and 16 remaining disputed issues, the table would have 176 separate values.
2. Petitioners shall re-run the Hatfield model for each Petitioner using the Respondents' proposed values for each of the remaining disputed issues. Unless objected to by Respondents, the outputs of these re-runs will be deemed to be Respondents' proposed termination charge for each Petitioner.
3. Respondents shall file with this Commission and serve on Petitioners an exhibit showing the table of proposed input values no later than close of business on Friday, August 18, 2006.
4. Petitioners shall file with this Commission and serve on Respondents an exhibit showing Respondents' proposed termination charges no later than close of business on Wednesday, September 20, 2006. Petitioners shall make available to Respondents and to this Commission's Telecommunications Division

documentation of the Hatfield model re-runs using Respondents' proposed input values, but shall file and serve only the results of those re-runs.

Dated August 1, 2006, at San Francisco, California.
